## Probe-It

**Specifications:** Contact: Phosphor bronze, Solder Type Termination. **Body:** Nylon. 3M new series of Probe-It™ plunger-actuated clips make test connections to individual component leads faster and easier. Simply press cap to extend the hook contact, place on component lead or wire under test, and release for hands-free troubleshooting and circuit testing. When removed from the lead the hook contact retracts into the plastic tip to minimize the possibility of shorting components. **Suggested Wire:** 26AWG (7-Strand, Tinned copper wire).

Description	Color	Digi-Key Part No.	Price / Pkg.
